

Electric Shaver Black Soocas S32

Electric Shaver Black Soocas S32

Ref: 6970237663870

Socas S32 cordless electric shaver

With the Soocas S32 electric shaver, you can not only even out or shave your beard, but also cleanse your face and get rid of blackheads - the included interchangeable brushes allow you to do so. Thanks to its pivoting heads and high quality blades, even extra short hairs can be effectively removed, while its long lasting battery gives you up to 300 minutes on a single charge. The shaver also features IPX7 water resistance, so you can use it dry or wet.

Fast and efficient shaving

The shaver is equipped with movable heads that rotate 360°. It perfectly adheres to your skin and effectively removes unwanted hair in a short time. You also don't have to worry about cuts or irritation. What's more, thanks to the self-grinding blades, you don't have to replace the cutting head too often.

Effective cleansing

The facial brush you will find in this kit is equipped with dense, soft, bristles consisting of 20,000 bristles with a width of 0.04mm. It allows you to cleanse your skin with an efficiency of up to 97%. It also uses antibacterial silver ions to effectively prevent the proliferation of bacteria and reduce the risk of irritation.

Say goodbye to blackheads

Effective cleansing isn't enough - the S32 shaver will also help you eliminate blackheads. The included brush uses bamboo charcoal to absorb excess oil and remove blackheads with a 35% efficiency. The brush stands out for its small size, and its bristles are 0.05mm wide, so you can clean every area of your face thoroughly and effectively.

Long runtime

Free yourself from cords and get the almost unlimited freedom of movement that the cordless design of the shaver provides. The S32 features a long-lasting battery that gives you up to 300 minutes of use on a full charge. Assuming you shave for one minute every day, you can enjoy up to 300 days of shaving on a single charge! To charge the shaver, connect it to a power source with a USB-C cable - it will be fully operational again in about 5 hours.

Waterproof

Use the shaver the way you want. The device is IPX7 waterproof, so you can shave dry or wet and even while bathing without worry. You won't have any trouble cleaning it either. Wash the shaver after every use to prolong its life and avoid the multiplication of bacteria.

Lightweight, handy, elegant

The Soocas S32 shaver looks really good. The black color, gold details and marble-like design give it an extremely elegant feel. The device is also extremely lightweight and compact - you can easily pack it in your suitcase, bag or backpack to take it with you on vacation or on a business trip. What's more, the travel lock feature will prevent you from accidentally starting the shaver during transport.

Built-in LED indicators

Special LED indicators make it easy for you to operate the device, providing you with the most important information about its operation. You can check the percentage of battery charge at a glance on the built-in display. The shaver will also remind you when it needs to be cleaned. What's more, when you activate the travel lock, a little padlock icon appears on the screen.
