Haylou X1 2023 Earphones (Black)

Discover a new dimension of sound with the modern Haylou X1 2023 earphones, combining elegance, the latest technology, and user comfort. Crafted with an aluminum case, they provide a stylish appearance and durability, while the matte finish protects against fingerprints and scratches. Advanced audio technology with a titanium membrane, ergonomic design, and user-friendly features make these earphones the perfect choice for demanding users.

Ergonomic Design

The Haylou X1 2023 earphones stand out with their semi-in-ear ergonomic construction, ensuring comfort during extended wear. The 60-degree angle perfectly fits the ear, minimizing the risk of them falling out during daily activities. The design is not only functional but also aesthetically refined, emphasizing the product's modern character.

Advanced Audio Technology

The X1 2023 model from Haylou is equipped with a titanium membrane and HD audio codec, ensuring sound purity and rich sound quality. Thanks to these technologies, listening to music or podcasts becomes a true pleasure. The earphones also offer high-quality sound during phone calls, which is particularly important in noisy environments.

Optimized for Gaming Experiences

The Haylou X1 2023 comes with an algorithm that reduces the delay between audio and video, which is crucial for gaming enthusiasts. This feature ensures synchronization of sound with on-screen action, significantly enhancing the gaming experience.

Environmental Noise Cancellation (ENC) and Noise Control

The innovative Environmental Noise Cancellation (ENC) feature effectively suppresses surrounding sounds, allowing for clear and crisp conversations. This solution is invaluable in urban environments where environmental noise can be bothersome.

Intelligent Gesture Control

The earphones are equipped with intelligent gestures, making it easy to control music playback, answer and end calls, and even switch between modes, including gaming mode. This functionality makes using the earphones even more intuitive and convenient.

Key Features

The earphones have IPX4 protection, making them resistant to splashes. The HAYLOU Sounds app allows you to customize EQ settings, change the Bluetooth device name, and check the battery level. The charging case offers a charging indicator, and charging itself is efficient and quick thanks to the USB-C input. The package includes earphones, a charging case, charging cable, and user manual. The operating range is 10 meters, and the battery life is 5.5 hours, extended to 24 hours with the case. All of this makes the Haylou X1 2023 earphones an ideal choice for those who value quality, functionality, and style.

Package Contents
