Zeblaze Stratos 3 Pro Smartwatch (Blue)

Zeblaze Stratos 3 Pro is a smartwatch designed for active and well-being-minded people. It features an easy-to-read 1.43" Ultra HD AMOLED display and an advanced GPS module that guarantees precise tracking. An innovative sensor constantly monitors health, and a wide selection of sports modes makes it easy to achieve new goals. Long battery life (up to 45 days) and IP68 water resistance are additional features, increasing functionality and comfort for everyday use.

High-quality display

The Zeblaze Stratos 3 Pro smartwatch is equipped with an Ultra HD AMOLED display, which guarantees outstanding image sharpness thanks to a resolution of 466x466 pixels and a pixel density of 391 PPI. Brightness of up to 1,000 nits ensures readability in all lighting conditions. More than 150 available clock face designs and the Always On Display function allow you to personalize the look and easily access information.

Precise GPS

The integrated GPS system works with 4 major satellite systems, including GPS, GLONASS, GALILEO and BDS, for fast and precise location tracking. In addition, you can import selected routes into the Zeblaze Fit app. Stratos 3 Pro is an ideal choice for active people who trek, run, or bike, and need accurate data on routes traveled.

Health and fitness monitoring

Advanced sensors for monitoring heart rate, stress levels and blood oxygen saturation allow you to continuously track your health. The smartwatch also enables analysis of specific sleep phases and suggests breathing exercises. It also offers advanced fitness features, including monitoring calories burned, a pedometer, and more than 100 sports modes tailored to different activities. In addition, it automatically recognizes walking or running. As a result, it is an ideal choice for people who want to stay in shape and take care of their health.

Your reliable assistant

Thanks to its Bluetooth 5.3 connection, Stratos 3 Pro allows you to receive phone calls directly from the watch. You can also receive notifications from apps regarding incoming emails or text messages, so you won't miss any important information. The device also reminds you of upcoming events.

Reliability and durability

Stratos 3 Pro is made of sturdy materials, so it's durable and won't be harmed by accidental knocks. It is also distinguished by its IP68 water resistance, allowing the device to be used during intense workouts or rainy weather. In addition, the smartwatch is equipped with a 400 mAh lithium-polymer battery, which provides up to 45 days of use on a single charge (in standby and power-saving modes). When you use the device while training in power-saving mode, you can enjoy up to 18 days of operation. The operating time while training with GPS and heart rate monitoring enabled is up to 84 hours, and up to 545 minutes while making calls. You will renew the watch's energy in 1.5 hours.

Synchronization capability and compatibility

The Zeblaze Stratos 3 Pro smartwatch provides compatibility with Android 4.4, iOS 8.2 and later. You can easily connect it to your smartphone using the Zeblaze Fit app, which is available in the Google Play and App stores. This will allow you to enjoy constant access to all the data collected by the watch, such as the number of steps, distance traveled, calories burned, sleep quality, heart rate and blood oxygen saturation levels.

Included

smartwatch magnetic charging cable with USB-A port user manual
