BlitzWolf BM-RS1 monitor lamp

The BlitzWolf BM-RS1 monitor lamp is the ideal solution for computer workers who value comfort and eye health. Designed for those working at a computer, it offers eye-comforting lighting and simple installation that make it an indispensable addition to any workstation.

Personalized lighting

The BlitzWolf BM-RS1 offers five different color temperature modes (from 3000K to 6000K) and five brightness levels. With infinitely adjustable brightness, a long press is all it takes to adjust the intensity of the light to suit your needs. Its maximum light output of 700 lumens consumes only 4.5 watts of power, making it energy-efficient and efficient.

Intuitive control

The lamp features a touch-sensitive switch for easy control. One click turns the lamp on, and another click changes the color temperature. Holding the switch allows you to dim the light gradually, while a double tap turns the lamp off completely. What's more, the memory function remembers the last settings, eliminating the need to readjust after turning it on. It's child's play!

Stable light perfect for work

The innovative asymmetrical optical design of the BlitzWolf BM-RS1 lamp, equipped with 66 high-quality LEDs, provides even illumination

of the desk and keyboard, eliminating glare and flicker on the screen. This reduces eye fatigue, which is especially important during prolonged computer work.

Easy installation

The BlitzWolf BM-RS1 lamp is designed for easy installation without the need for additional tools. It is compatible with both flat and curved screens from 0.39 to 2 inches thick, making it suitable for monitors from 15 to 24 inches in size. The suspension mechanism of the BlitzWolf BM-RS1 lamp saves more than 95% of desk space, providing optimal illumination of the workspace.
