Interactive educational 4-in-1 table (pink) Huangere HE0817

Huangere HE0817 Interactive 4-in-1 Educational Table (pink)

The Huangere HE0817 4-in-1 Interactive Educational Table is an ideal choice for parents who want to combine fun and learning for their child. This innovative product combines the functions of a walker, pusher, educational table, scooter and rider, offering endless possibilities for development and enjoyment.

Multifunctionality for your child's development

Huangere educational table is more than just a toy! With its walker and pusher function, it supports your toddler in taking his first steps, teaching him balance and coordination. Once your child becomes confident, the table can be easily transformed into an educational table, scooter or ride-on, adapting it to your child's changing needs and skills.

Development through play

The interactive panel on the front of the table is a real activity center! Your child can throw balls into the mini basket, match geometric shapes, and play with the musical piano in the shape of a cake. The playing and glowing crab, the movable pinwheels and the book-mushroom with animal pictures develop manual and sensory skills, exercising hand-eye coordination and musical sensitivity.
