

Gosund Smart Zigbee/WiFi/BLE Gateway ST21 Tuya

Ref: 6977038680303

Gosund Smart Zigbee/WiFi/BLE Gateway ST21 Tuya

Gosund Smart Zigbee/WiFi/BLE Gateway ST21 Tuya

The Gosund Mini WiFi/Zigbee/BLE Gateway ST21 is an advanced device that enables central management of all smart devices in the home. It allows easy integration and remote control of devices using Zigbee, Bluetooth and Wi-Fi protocols, making it ideal for any modern home.

Connectivity and compatibility

The Gosund ST21 supports the latest BLE 5.0 standard as well as IEEE802.3 11n/g/b WiFi and Zigbee 3.0, ensuring a stable and reliable connection. The device is compatible with Amazon Alexa and Google Assistant voice assistants, allowing voice control of devices in the home. The maximum range of the connection is about 10 meters, allowing extensive control of the home.

Compact design

The Gosund ST21 gateway features compact dimensions of 50x50x11 mm and a lightweight design weighing only 100 grams. Thanks to its small size and light weight, the gateway can be easily placed anywhere in the house, where it will discreetly perform its function without taking up valuable space.

Remote control and monitoring

One of the main advantages of the Gosund ST21 gateway is the ability to remotely control home appliances using a smartphone. No matter where you are, you can check the status of your devices, turn them on and off, and adjust settings. By controlling compatible devices, for example, you can remotely open the door for a guest or turn off the lights if you forget to do so before leaving the house.

Security and access management

The gateway allows you to manage access to your home by creating temporary access passwords for guests or service workers. In addition, the device allows you to keep track of your activity history, which increases security and gives you full control over what happens in your home.

Easy to install and use

Power supply via USB 5V 1A provides convenience of use and flexibility in choosing the power source. Intuitive LED indicators show you the status of the network and connected devices, and reset buttons with a 5-second response time allow you to quickly restore factory settings when needed.

Included

Gateway
USB cable
User manual

General

Manufacturer:Gosund Model:ST21 Weight:100 g Dimensions:50x50x11 mm Certifications:CE/ROHS

Connectivity

Wireless type:Zigbee 3.0, WiFi, BLE (bluetooth) 5.0 Standards:IEEE802.3 11n/g/b WiFi; IEEE 802.15.4 Frequency:2.4 GHz

Power supply

Direct current:5V 1A Power supply:USB Reset button:5s

Features

Red indicator:WiFi Blue indicator:Zigbee + BLE Operating temperature range:0°C - 50°C Operating humidity range:10% - 85% RH Storage temperature range:0°C - 70°C Storage humidity range:5% - 95% RH Operating environment:Internal

Price:

€ 26.00
