

Armband Heart Rate Monitor Coospo HW706 compatibile with Str

Ref: 5906168434228

Armband Heart Rate Monitor Coospo HW706 compatibile with Strava , wahooo, mapmyfitness etc.

Coospo HW706 Heart Rate Monitor

Meet the Coospo HW706, a lightweight wristband heart rate monitor that provides accurate heart rate data to help analyze your workout performance. With accurate real-time monitoring, the HW706 supports you to perform better during running, cycling and other aerobic exercises.

Accurate heart rate monitoring

The HW706 is equipped with a state-of-the-art optical sensor array and proprietary algorithm, allowing you to precisely monitor your heart rate in real time. Whatever your activity, you can rely on accurate data to help you adjust your exercise intensity and avoid overload.

Quick operation with LED indicator

The HW706 heart rate monitor is equipped with an LED indicator to let you know the status of your connection. The blue light flashes quickly when the device is not connected, and flashes slowly when a connection is established. This simple solution makes it quick and easy to check the operating status of the heart rate monitor.

Long runtime and magnetic charging

With a built-in, robust lithium battery (90 mAh), the Coospo HW706 offers up to 20 hours of continuous operation on a single charge. This is sufficient for long workouts and intense exercise. The HW706 uses magnetic USB charging, which makes renewing the device's energy fast and convenient. Simply recharge it to enjoy its full functionality again.

IP67 water resistance

The HW706 heart rate monitor is IP67 waterproof certified, which means it is resistant to water and sweat. You can use it in both dry and wet conditions without worrying about its accuracy.

Included

HW706 heart rate monitor with armband x 1

Charging cable x 1

User manual x 1
