TESSAN TPS02-DE-C power strip

The TESSAN TPS02-DE-C power strip is an exceptionally functional solution for those who need a reliable power supply in the office, home or other places where space organization matters. Its modern, minimalist design makes it blend in perfectly with any interior, without disturbing its aesthetics. With the ability to connect as many as 12 devices via Schuko sockets and an additional 3 USB ports, you can easily power a number of equipment at the same time.

Versatility of use

Equipped with 12 Schuko sockets and 3 USB ports (2 x USB-A and 1 x USB-C), the TESSAN TPS02-DE-C power strip allows you to connect multiple devices at the same time, making it an ideal choice for the office or home. You can conveniently power your computer, smartphone, tablet, as well as other electronic devices, while keeping your cables tidy.

Fast charging

The USB ports offer enough power to quickly charge a variety of devices. The USB-C port provides 3A, which guarantees fast charging of various models of smartphones or tablets. This saves you time and ensures that your devices are always ready to use.

Practical design

TESSAN TPS02-DE-C is distinguished by its thoughtful design. The compact design of the strip saves space while providing easy access to every outlet and port. The integrated cable organization solution helps keep your desk tidy, which is especially important in workplaces.

Durability and safety

The TESSAN TPS02-DE-C power strip is made of the highest quality materials, which guarantees long-lasting use. Integrated overvoltage and overload protection ensures the safety of connected devices, protecting them from damage.
