

TESSAN Power strip TS-306-C

TESSAN Power strip TS-306-C

Ref: 6975799313980

TESSAN TS-306-C power strip.

Stock up on a power strip that's great for home, office and more. TESSAN's TS-306-C offers up to 6 AC outlets, 2 USB-A ports and a USB-C port, allowing you to connect up to 9 devices at once. At the same time, it takes up little space, and you can attach it to the wall if needed. The product is also equipped with a practical switch and a long 2-meter cable.

Connect up to 9 devices simultaneously

The TS-306-C power strip allows you to seamlessly charge and power up to 9 devices simultaneously - for example, laptops, smartphones or tablets. Thanks to this, it will find use in, for example, the living room, bedroom, kitchen and even in the office. You can use up to 6 AC outlets, 2 USB-A ports and a USB-C port. What's more, its maximum load is 3500 watts - enough to handle even the most demanding electronic devices.

It will help you save electricity

Be sure that the strip works only when you actually need it. The TS-306-C is equipped with a small switch, with which you can conveniently turn the power on and off. This will help you save electricity! The device also has a special built-in light indicator that will provide you with information about its status. When the power is on, it shines with a soft light - with TESSAN you have everything under control.

It won't take up too much space

Thanks to its carefully thought-out design and small size (10 x 7.9 x 7.9 cm), the strip doesn't take up too much space - it will work well even on a smaller desk. You can also attach it to the wall to save even more space. Its additional advantage is the long 2-meter cable, which provides more freedom.
