

## Smartwatch BlitzWolf BW-AT4 (black)

Smartwatch BlitzWolf BW-AT4 (black)

Ref: 5906168437472

BlitzWolf BW-AT4 smartwatch (black).

The BlitzWolf BW-AT4 is your new daily assistant. It offers the most important health monitoring functions around the clock and lets you use the AI voice assistant. You can also conveniently manage phone calls, and the circular color display provides convenient operation.

Voice control

Make your daily use easier and use selected functions with voice commands. Now you can conveniently ask Siri about the weather, make phone calls, play music, etc. Access the most important options at your fingertips.

Take care of your fitness and health

Choose from more than 100 available sports modes - fitness, dance, yoga and running, among others, are at your disposal. The smartwatch automatically records the number of calories burned, speed and distance. In addition, the built-in sensor accurately measures blood saturation, heart rate, blood pressure and monitors sleep.

Manage notifications

From the smartwatch, you can read messages from apps such as SMS, WeChat, Facebook, Twitter, QQ, etc. - all you have to do is raise your wrist. It is also possible to answer or reject incoming calls.

#### Convenient operation

The smartwatch uses a 1.52" round AMOLED display, which provides a richly colored and detailed image. As a result, you can read notifications comfortably. What's more, you can easily turn on the desired function with the rotating crown.

#### More useful features

BlitzWolf offers a number of practical options that you can use every day. Conveniently check the weather forecast, track your menstrual cycle, control the camera shutter, use the calculator and timer. You will also receive reminders for physical activity and find your lost smartphone. Breathing exercises and the ability to control the music player are also at your disposal - enjoy high quality sound with ACC.
