Blitzwolf BW-S26 250W mains charger (black)

The BlitzWolf BW-S26 is a mains charger compatible with a wide range of devices including laptops, smartphones and tablets. Thanks to GaN technology, the charger is efficient and compact, offering high power output while maintaining a small size. What's more, it offers up to 8 ports, allowing you to charge multiple devices simultaneously.

Multi-level protection and smart charging

The BlitzWolf BW-S26 charger is equipped with multi-level security features to protect your equipment from damage. What's more, smart technology adjusts charging parameters to the specific device, ensuring optimal performance and safety.

Support for fast charging protocols

BW-S26 supports the latest fast charging protocols, such as PD3.0, QC3.0, PPS, AFC, FCP and APPLE. This allows users to enjoy fast charging for a wide range of devices. The charger is also compatible with smartphones, laptops, TWS handsets, Nintendo Switch, powerbanks, tablets, etc., making it a versatile solution for home and office.

GaN technology

GaN technology used in the BlitzWolf BW-S26 charger allows the charger to be smaller and more efficient. This makes the device more

compact, lighter (it weighs just 268g) and more efficient in operation, making it an ideal choice for both home and travel use.
