

Self-levelling 3D 360 cross level laser HOTO QWFGJ002 ($\pm 3\text{mm}/$

Self-levelling 3D 360 cross level laser HOTO QWFGJ002 ($\pm 3\text{mm}/10\text{m}$ 5200mAh)

Ref: 6974370801489

3D 360 HOTO QWFGJ002 self-leveling cross level laser ($\pm 3\text{mm}/10\text{m}$ 5200mAh).

The HOTO QWFGJ002 3D cross laser is an advanced measuring tool ideal for jobs requiring precise alignment and leveling. With a 360° three-axis laser projection function, the device offers full coverage in every direction, making it ideal for both home renovations and professional construction projects. Automatic leveling, long battery life and durable construction are features that set this model apart from the competition, providing convenience and reliability for any task.

Full coverage

The HOTO QWFGJ002 cross laser offers projection on three 360° axes, providing full coverage and precise alignment in any space. This functionality makes it the ideal tool for a variety of tasks, from hanging paintings to assembling shelves to construction work. No matter what level of accuracy you require, this laser will help you achieve perfect results.

Automatic leveling

With the automatic leveling function, the laser independently corrects tilts up to 3°, ensuring accuracy and reliability in any situation. Simply place the device on any surface, and at the touch of a button, start the automatic calibration. The laser instantly draws a perfectly straight line, saving you time and effort.

Easy operation and extended range

The device is extremely easy to use - just place it on a flat surface and the rest happens automatically. The powerful laser beam reaches a range of up to 15 meters on each side, making it ideal for larger projects requiring precise level determination.

Stable positioning

The HOTO QWFGJ002 cross laser comes with a precision tripod that ensures stable and accurate positioning. This tool is ideal for maintaining precision in complex working conditions, allowing you to work at the highest level of accuracy.

Rugged construction

Built with durability in mind, the laser is IP54 rated, which means it is splash and dust resistant. That's a guarantee of reliability in a variety of working conditions, both indoors and outdoors. Regardless of where you use it, you can be sure that the device can handle environmental difficulties.

Long battery life

The HOTO QWFGJ002 is equipped with a powerful 5200mAh battery, which provides up to 13 hours of operation in pulse mode. The laser can be used both wired and wirelessly, giving you full freedom of operation without worrying about sudden power drain during operation.

Safety and exceptional visibility

Using Osram LEDs, the laser generates lines that are four times more visible, making it easier to maintain accuracy even in complex conditions. Classified as a Class II laser, with an output of less than 1mW, the device is safe to use, posing no health risks to the user.

Name:3D 360 HOTO QWFGJ002 self-leveling cross level laser ($\pm 3\text{mm}/10\text{m}$ 5200mAh)Manufacturer:HOTOModel:QWFGJ002Product dimensions:127 x 123 x 87 mm (without mounting hardware)Net weight:approx. 600 gLaser range:3 x 360°Laser distance:15 m on one side, 30 m total on both sidesLaser accuracy: ± 1.5 mm at 5 m, ± 3 mm at 10 mAuto leveling angle: $3^\circ \pm 1^\circ$ Battery life:6.5 hours, 13 hoursRemote control operating distance:approx. 12 m (39 ft)Storage temperature: -10°C to 45°C Operating temperature: 0°C to 45°C Battery capacity:5200 mAhRated voltage:3,7 VInput:5 V, 1 ABattery type:Lithium-ionCharging time:approx. 5.5 hoursLaser class:Class II, output power
