

Genki Covert Dock 2 docking station

Genki Covert Dock 2 docking station

Ref: 850001769051

Genki Covert Dock 2 docking station

Genki Covert Dock 2 is a state-of-the-art docking station that combines the function of a 45W charger with a full-fledged 4K HDMI dock. Designed with mobile users in mind, it offers extensive support for a variety of devices such as game consoles, laptops, tablets and smartphones. With its compact size and integrated functionality, the Covert Dock 2 is ideal for gamers and professionals who travel frequently and need a portable media center.

High charging performance

Covert Dock 2 uses advanced GaN technology to deliver up to 45W of power, which is enough to power even the most demanding portable devices, such as Steam Deck and Nintendo Switch. This allows the device to charge the console during intense gaming, as well as power other devices such as laptops and smartphones without the need for additional chargers.

Support for 4K resolution

The Covert Dock 2 offers up to 4K resolution at 60 Hz, making it ideal for big-screen gaming, watching high-definition movies or giving conference room presentations. With additional USB-A ports, you can connect additional accessories such as game controllers, keyboards, or external hard drives, adding to its functionality.

Compact design and compatibility

The Genki Covert Dock 2 is 90% smaller than the original Nintendo Switch dock, making it extremely easy to carry. The collapsible plugs and included set of global adapters, supporting more than 180 countries, make it ideal for frequent travelers. Despite its compact size, the device is designed with the highest quality components, guaranteeing long life and reliability.

Reliability and security

Genki Covert Dock 2 is not only about functionality, but also about security. The device is equipped with advanced protection mechanisms that prevent damage to the equipment during charging. Thus, users can rest assured that their valuable devices are in good hands.
