

## Genki Covert Dock Mini docking station

Genki Covert Dock Mini docking station

Ref: 850001769273

### Genki Covert Dock Mini docking station

The Genki Covert Dock Mini is an advanced docking station that offers full support for game consoles such as Nintendo Switch, Steam Deck, and a wide range of USB-C devices. Thanks to its compact size, the Covert Dock Mini is ideal as a portable entertainment center, allowing you to connect your console to any screen with HDMI input, while offering up to 4K resolution.

### Versatility and compatibility

The dock supports the USB-C DisplayPort standard (DP Alt Mode), making it compatible not only with gaming consoles, but also with laptops, tablets and smartphones. The Genki Covert Dock Mini works with a variety of streaming, recording and editing apps, making it a great choice for streamers and gamers using platforms such as Twitch and YouTube.

### Advanced viewing capabilities

The device can instantly stream up to 1440p at 30 Hz or 1080p at 60 Hz to TVs or monitors. The Covert Dock Mini provides low latency, which is key when playing live games, and with support for USB-C 3.2, it allows you to transfer both power and video over a single cable.

### Portability and performance

Weighing just 10 grams and measuring less than the size of a thumb, the Covert Dock Mini is one of the smallest and lightest devices in

its category. Despite its compact size, it offers 20W of power, which is enough to charge portable consoles, although more demanding devices such as Steam Deck may need to be plugged in during gaming to ensure adequate performance.

#### Support for cameras and monitors

The Genki Covert Dock Mini can also act as a monitor for SLR cameras, a useful solution for video content creators. When paired with an iPad, it becomes a convenient live monitor, further enhancing its functionality for mobile work.

#### Included

Docking station USB-C 3.2 cable
