IP Camera Laxihub P2-TY WiFi 1080p 360° Tuya

Ref: 6972055682934

IP Camera Laxihub P2-TY WiFi 1080p 360° Tuya

Laxihub P2-TY WiFi 1080p 360° Tuya IP Camera
The camera provides clear and crisp video with maximum 1080p resolution and enhanced night vision technology. It also has a wide field of view and is rotatable, and can be controlled via an app. Speakers and a built-in microphone ensure communication with loved ones, and a notification will be sent to your smartphone if motion or unusual sound is detected. In addition, an AWS cloud server provides a secure storage option. In addition, a three-month free trial of cloud storage and recording of 60-second video clips is also available.

Night video recording from all angles
The 1080p maximum resolution, combined with enhanced night vision technology, displays clear and crisp video, providing constant surveillance of the home regardless of time or place. The camera has a wide field of view and rotates 355 degrees horizontally and 60 degrees vertically. Using the app, you can see every part of your home by easily controlling the pan and tilt.

Two-way audio and interoperability with Alexa and Google Assistant
Built-in speakers and microphone ensure you can communicate seamlessly with your loved ones anytime, anywhere. Working with Alexa and Google Assistant, you can ask to be shown the front door, a child's room, a pet's room or anywhere the P2 camera is mounted to any Alexa or Google Chromecast screened devices.

Motion and noise detection

As soon as motion or unusual sound is detected, notifications will be sent to your smartphone. You can adjust the detection sensitivity level to suit your needs.

AWS cloud server with privacy mode

AWS secure cloud storage - Arenti Cloud Service guarantees a secure storage option. Once Arenti Cloud is activated, it can be automatically turned off, while using the same WiFi with your cell phone, so the cameras will be put to sleep while you are at home. Turn off the camera, you can with a single click.

3 months of free cloud storage

A three-month free trial of cloud storage and recording of 60-second video clips is available. If the storage service is enabled, the recording will be stored for 72 hours. The device is compatible with 128GB FAT32 Micro SD cards (sold separately). Video can be exported from the SD card in MP4 format, and access to the camera can be shared with family and friends.
