IP Outdoor Camera Laxihub O1-TY WiFi 1080p Tuya

IP Outdoor Camera Laxihub O1-TY WiFi 1080p Tuya

Increase security in your home. The Laxihub O1-TY outdoor camera provides great quality 1080p video both day and night. It is equipped with a precise motion sensor and supports 2-way audio. It stands out with its IP65 water resistance, as well as compatibility with Tuya Smart, Google Assistant and Amazon Alexa. It supports micro SD cards of up to 128GB. When you buy the camera, you can also get a 3-month free trial of Arenti cloud recording storage.

Excellent day and night image quality

The camera is equipped with a wide-angle lens and guarantees high quality 1080p video. As a result, you get clean, clear recordings and you can keep an eye on what is happening in your home at any time. The device also works great at night. With an improved infrared sensor and night vision system, it provides a clear view at a distance of up to 10m.

2-way audio

The built-in highly responsive microphone and noise-canceling speaker make it easy for you to talk to your family members or guests even when you are not at home. The camera supports 2-way audio. It is also compatible with Amazon Alexa and Google Assistant, which means you can control it with voice commands. With just a few words, you can see what's happening in the garden or in your child's room on the screen of your smartphone or other device with Google Chromecast or Alexa.

Built-in motion sensor

Take care of the security in your home. The camera is equipped with an extremely precise AI powered motion sensor. If someone comes within its range, you will know about it immediately - O1-TY will immediately send you a notification to your phone via the Arenti app. When the camera detects motion, it can also automatically record a 60-second video.

More capabilities with the app

Install the Arenti app and get even more possibilities. Using it you can, for example, change the settings or check the preview from the camera. You can also share devices with other users - for example, family members or friends. This way, they can also check if anything alarming is going on at home and react quickly if necessary.

Store recordings in 2 ways

Conveniently store saved recordings. The camera is compatible with FAT32 microSD memory cards with a maximum capacity of 128GB - you can export videos from them in MP4 format. The manufacturer also offers a 3-month free trial of using the Arenti cloud, which runs on Amazon's AWS service and uses advanced encryption technology to protect your privacy. If you take advantage of this option, the camera will save video to the cloud for 72 hours.

Resistant to changing weather conditions

You can mount the camera not only indoors but also outdoors without any worries. The device is very durable and waterproof to IP65. It can operate in temperatures from -20°C to 50°C. It is resistant to various weather conditions. Rain, snow, storm or fog do not pose a threat to the device. Install O1-TY in your garden and be sure that no unwanted people will be near your house without your knowledge.
