

Gens ace G-Tech Soaring 3300mAh 14.8V 30C 4S1P Lipo Battery

Gens ace G-Tech Soaring 3300mAh 14.8V 30C 4S1P Lipo Battery

Ref: 6928493309155

Gens ace G-Tech Soaring 3300mAh 14.8V 30C 4S1P Lipo Battery

The Gens ace G-Tech Soaring LiPo Battery is an excellent power source for advanced flying devices such as FPV aircraft, RC wings, quadcopters and hexacopters. With a capacity of 3300 mAh and a voltage of 14.8V (4S), the product offers a solid supply of energy for long and efficient flights. The recommended charging speed of 1-3C ensures fast and safe energy renewal, while the XT90 connector type and JST-XHR balancer plug guarantee easy connection and wide compatibility. What's more, the weight of 328 g and compact dimensions of 137 x 42.5 x 26 mm allow the battery to be placed in various designs without excessive impact on the aerodynamics and weight of the model.

Manufacturer Gens ace Model GEA334530X9GTCapacity 3300 mAh Voltage 14.8 V (4S) Max continuous discharge current 30C Max. pulsed discharge current 60C Charging speed 1-3C (recommended) Connector type XT90 Balancer connector type JST-XHR Weight 328 g Dimensions 137 x 42.5 x 26 mm Cable length (C/D) 65 mm / 150 mm
