Flashlight Superfire L6-H, 750lm, USB-C

Ref: 6956362931497

Superfire L6-H Flashlight

The Superfire L6-H flashlight is distinguished by its high power of 15W, and its brightness reaches 750lm. It offers 5 light modes to choose from, making it perfect for various scenarios. Its working time reaches 8 hours on a single charge, and the IP46 water resistance allows you to use it in almost any conditions. The device is also extremely handy, durable and easy to use.

High power

Power of 15W, brightness of 750lm and a long range of light - all this means that the L6-H flashlight can provide optimal lighting in almost any environment and will find use in many situations. You can successfully use it at home, for example, when the power fails. It will also be useful in the mountains or during a fishing trip. It will also make it easier for you to carry out small repairs.

5 light modes

Customize the flashlight's operation to suit your needs or the current situation. The L6-H lets you choose from 5 light modes such as High, Medium, Low, Strobe and SOS. This makes it ideal for a variety of scenarios - it will provide you with optimal light in almost any condition, and if necessary, it will send an alarm signal. To change the mode, just press the button.

Long runtime

Provide yourself with a reliable source of light in almost any situation. Thanks to the durable battery, the flashlight can work for up to 8 hours on a single charge. Therefore, it will be perfect during a prolonged power outage or a night outdoor expedition. To charge the device, connect it to a power source of your choice using a USB-C cable.

Waterproof and durable

Fearlessly use the flashlight even in demanding conditions. The device is made of high grade aviation aluminum, which makes it extremely durable - even drops from a height of up to 1m are not a threat to it. L6-H is also distinguished by IP46 water resistance. This means that rain or accidental splashing are not a threat to it.
