Gens ace 8000mAh 14.8V 100C 4S2P Lipo Battery Pack

Ref: 6928493309421

Gens ace 8000mAh 14.8V 100C 4S2P Lipo Battery Pack

The Gens Ace battery pack is a lithium-polymer battery tailored to the specific needs of ARRMA vehicles. With its 8000 mAh capacity and 14.8V voltage, it provides long-lasting power and optimized performance. Weighing 740 g, the battery pack measures 157 × 55 × 42 mm, allowing it to fit easily into standard battery drawers. An added advantage is the use of the JST-XHR balancing plug and EC5 discharge plug, which increase compatibility and efficiency of use. The housing, made of a combination of PC and silicone rubber, offers dual protection, which not only protects the battery from mechanical damage, but also improves the stability of its attachment to vehicles.
