USB to USB-C cable, Essager, EXCT-YS01-P, 100W, 1m (black)

USB to USB-C cable, Essager, EXCT-YS01-P, 100W, 1m (black).

The USB to USB-C cable offers 100 watts of power. With magnetic technology, high-quality workmanship and smart features, the accessory is ideal for any user who values both performance and convenience.

Magnetic storage method

The innovative magnetic storage method ensures that the Essager cable always remains neatly coiled and ready for use. With magnets along the cable, it can be easily coiled and stored without worrying about tangling.

Performance

The Essager cable supports 7 amps of current and 100 watts of power for fast and efficient charging of devices such as tablets, phones and headphones. The ability to transfer data at speeds of up to 480 Mbps provides added convenience. The USB 2.0 standard guarantees stability and speed of transfer.

High quality workmanship

The product is made of high-quality materials, including aluminum and TPE, and a high-density braiding process was used during its production. The solution used ensures not only aesthetic appearance, but also durability and resistance to wear.

Intelligent chip
The E-Marker chip is responsible for controlling the charging protocol, ensuring that the current and voltage are optimally matched to the connected device. This way you can be sure that charging is done efficiently and safely.

Compatibility
The Essager cable works with the latest phone models, such as the iPhone 15, Huawei Mate 60, Samsung Galaxy S23 and many others. In addition, it will work well for powering small household appliances and gaming consoles, such as the Nintendo Switch and PlayStation 5.
