

Wall charger, Essager, ECTAC-MYB01-Z, GaN, USB-C, USB-A, 65

Ref: 6975253973934

Wall charger, Essager, ECTAC-MYB01-Z, GaN, USB-C, USB-A, 65W (black)

Power charger, Essager, ECTAC-MYB01-Z, GaN, USB-C, USB-A, 65W (black)

The Essager mains charger uses GaN technology to offer high performance and a compact size. With an output power of 65W, it can charge a variety of devices quickly and efficiently. The 100-240V power supply allows it to be used worldwide, and the presence of two ports (USB-C, USB-A) ensures wide compatibility.

High performance

The device offers a variety of charging outputs, including USB-C and USB-A. The USB-C port provides a maximum output power of 65 watts, which is ideal for charging laptops, tablets and smartphones. The USB-A port, on the other hand, offers up to 30 watts of power and allows you to quickly charge less demanding devices.

Wide power range

Travel worry-free. The Essager charger operates over a wide range of input voltages (from 100 to 240V), allowing it to be used virtually anywhere in the world. As a result, the device is an ideal solution for frequent travelers who need a reliable power source.
