Blitzwolf BW-PCM3 Portable Touchscreen Monitor

The Blitzwolf BW-PCM3 portable touchscreen monitor will come in handy for you not only at work, but also during gaming, for example. It is compatible with many devices, such as laptops or smartphones. It is equipped with several ports and OSD button. The 1080p touchscreen provides excellent picture quality and the built-in speakers let you enjoy stunning sound. The device also supports reverse charging and is extremely lightweight and durable.

Multiple available ports - wide compatibility

The monitor is distinguished by its wide compatibility. It has several ports such as 3.5mm audio, USB-C charging port, USB-C power input and data port, HDMI, and USB-A for connecting peripherals. You can easily connect it to a smartphone or a gaming console such as PlayStation 4, XBOX One or Nintendo Switch, among others. What's more, by connecting it to your laptop, you can either duplicate the screen or split it - similar solution will be useful for you at work, for example.

Excellent image quality

See every detail when you're watching movies, creating graphic designs, reviewing vacation photos or playing games. This monitor features an IPS matrix and delivers fantastic 1080p image quality. It also supports HDR. It stands out with a brightness of 300cd/m3 and a contrast ratio of 1000:1. All this makes the device perfectly reproduce colors and guarantees a clear, crisp, richly detailed image in

almost any conditions.

User-friendly

Using the monitor is extremely easy. The device is equipped with several buttons that allow you to conveniently adjust the volume and brightness. There is also an OSD menu that allows you to easily adjust selected parameters such as brightness, contrast or color. The set also includes remote control (without batteries) and a holster with a bracket. The monitor is also light and thin - its transport will not cause you any problems. It is made of high grade aluminum alloy, which ensures its durability.

Reliable touchscreen

What else makes using the monitor so easy and enjoyable? The product is equipped with a high-quality touch screen that responds instantly to every finger swipe and guarantees reliable, smooth operation. It offers multi-touch for up to 10 points, so you can comfortably operate it with various multi-touch gestures. Easily zoom in on images, slide across the screen, and select items!

Immersive sound

Want to listen to music or play a game? No need to look for additional audio players! The monitor has 2 built-in stereo speakers that provide crystal clear sound and rich detail. Comfortably listen to your favorite playlists, watch movies or play games. With the Blitzwolf, you'll be even more immersed in the game and beat your opponents!
