

Adjustable Capacitive Stylus Nillkin iSketch for phone/table

Adjustable Capacitive Stylus Nillkin iSketch for phone/tablet (white)

Ref: 6902048186798

Nillkin iSketch adjustable capacitive stylus for phone/tablet (white)

The Nillkin iSketch is a capacitive stylus that will make using your tablet or smartphone more enjoyable. Equipped with a carbon fiber tip and a smart chip, it offers 3 different levels of sensitivity, ensuring smoothness and precision in every movement. Intuitive one-button controls allow for easy operation, and a 10-hour runtime on a single charge ensures continuous use throughout the day.

Three levels of sensitivity

The Nillkin stylus offers three levels of sensitivity that adjust to different usage conditions, providing the perfect experience for writing and drawing on your device. The L mode is ideal for devices without any tempered glass, providing high responsiveness and immediate touch response. The M mode is dedicated to devices with thin tempered glass, ensuring a smooth and comfortable typing experience. H mode, on the other hand, is designed specifically for devices with thicker tempered glass, offering perfect precision and control over any drawing.

Long working time

The Nillkin iSketch is the ideal tool for those who value reliability and long-lasting performance. With a runtime of up to 10 hours on a single charge, you can enjoy creating and writing all day long without interruption. With a quick charge in just 45 minutes, you can quickly get back to work as soon as the battery runs out.

Thoughtful design

The carbon fiber tip provides extreme precision and smoothness when writing and drawing, giving you full control over every movement. Thanks to the simple one-button operation, you can easily turn the stylus on and off without having to connect to Bluetooth. What's more, the ergonomic design provides a comfortable grip, so you can work for long periods of time without tiring.
