Hohem iSteady XE Gimbal

Hohem iSteady XE is a versatile gimbal that combines lightweight, advanced stabilization and creative features in one compact device. Its innovative recording modes, easy operation and customizable lighting make it an ideal choice for anyone who wants to create professional videos and photos with a smartphone. With Hohem iSteady XE, you can easily capture every moment in the highest quality.

Advanced stabilization and versatility

The Hohem iSteady XE gimbal offers advanced 3-axis stabilization and the iSteady 7.0 algorithm to ensure smooth and stable recordings regardless of conditions. The device is capable of handling larger smartphones, meaning you can use the latest phone models without worry. With a wide range of pan, tilt and rotation - each with an angle of 320° - the iSteady XE allows you to capture dynamic and impressive shots from a variety of perspectives.

Innovative recording features and modes

Thanks to the dedicated Hohem Joy app, you can take advantage of a number of interesting templates and features, such as tilt and pan tracking, screen lock mode for better stabilization, POV (first person perspective) mode, sports mode, dolly zoom, timelapse and more. One of the most spectacular features is Inception mode, activated by pressing the button three times, which allows the smartphone to rotate spectacularly 180 degrees, creating amazing visual effects. Thanks to these options, the gimbal will find its use for daily vlogs,

recording travel or city reports, family vlogs, sports vlogs or for recording videos and photos for social media.

Creative lighting and simple control

The Hohem iSteady XE has a detachable magnet light that offers 10 brightness levels and three different color temperatures (warm, cold and neutral). This allows you to easily adjust the lighting to suit the conditions and get the perfect shots. Intuitive buttons allow you to quickly change recording and shooting modes, and the Bluetooth connectivity allows you to control the device with simple gestures, opening up many creative possibilities.

Long working time and performance

The Hohem iSteady XE gimbal is equipped with a powerful battery that provides up to 8 hours of operation on a single charge. This is ideal for long recording sessions, allowing you to capture all the important moments without worrying about losing power.

Lightweight and portable

Hohem iSteady XE is a gimbal that impresses with its lightweight and compact dimensions. Weighing just 259 grams, it is incredibly easy to carry, making it the perfect accessory for recording on the go. With its sleek design and compact dimensions, the gimbal will fit into any bag, making it always ready to use, no matter where you are.
