

Remote Control Hohem HRT-03

Remote Control Hohem HRT-03

## Hohem HRT-03 remote control

The Hohem HRT-03 remote control is a reliable tool for anyone who wants to get the most out of their Hohem gimbal. With its long range, intuitive operation and wide range of features, this remote control is an invaluable addition to any film or photography kit. Choose the Hohem HRT-03 and enjoy complete freedom and control over your recordings!

## The convenience of filming and shooting from anywhere

With this remote control, you can wirelessly (up to 10 meters) manage your gimbal's functions, such as turning on and off, starting recording, taking photos, switching modes, and manually controlling axes and zoom. Whether you're recording videos, taking photos, or participating in extreme activities such as cycling or surfing, the Hohem HRT-03 provides convenience and ease of use. Thanks to Bluetooth and intuitive button layout, the remote control allows you to easily switch between the gimbal's modes, such as panorama mode, auto-rotate and zoom. In addition, the ability to toggle the front and rear camera and switch between landscape and portrait modes allows for complete flexibility in content creation.

## Compact and robust - always at hand

The Hohem HRT-03 remote control is small, lightweight and solidly built, making it easy to carry and ideal for use in any situation. Its compact size means it will fit in any pocket or bag, which is especially useful when traveling or doing outdoor activities. A shortcut key

Ref: 6971071550838

allows you to quickly select your favorite settings, making work much easier and saving time.

Intuitive operation for maximum user experience

The Hohem HRT-03 remote control was designed for maximum comfort of use. Properly arranged buttons make operation intuitive and easy in any situation. Whether you're using the remote control in low-light conditions, during intense activities or at family gatherings, you're assured that all functions are always at your fingertips.
