Mcdodo MC-5021 Magnetic Power Bank 20000mAh, 20W (black)

Power Bank Magnetic Mcdodo MC-5021 20000mAh, 20W (black).

The Mcdodo MC-5021 magnetic powerbank is the perfect combination of modern design and high performance. With a capacity of as much as 20000mAh, it allows you to charge your devices in any situation, and its compact size makes it perfect for both home and travel. The product supports wired and wireless charging, and is compatible with many smartphone models. You don't have to take your phone out of the case to use it, either! You'll also find a 0.2-meter USB-C to USB-C cable included.

Wireless and wired charging

This powerbank offers both wireless charging with up to 15 watts and fast USB-C wired charging with up to 20 watts. This means you can charge your phone without the need for cables, and when needed, you can top up the battery in no time with a cable.

Simultaneous charging and discharging

Now you can easily charge your phone even while charging the powerbank itself. This is an extremely convenient solution that ensures continuous use and minimizes the time you have to wait for your devices to fully charge.

High capacity

With a capacity of 20000 mAh, the MC-5021 does not require too frequent charging. With its help, for example, you can charge an iPhone

13 mini about 5 times and an iPhone 14 up to 4 times, making it an ideal choice for long trips or busy days when you don't have access to traditional power sources.

Strong magnets and precise fit

The powerbank is equipped with 28 strong magnetic cores that provide double the pulling power and a precise fit to your device. So you can be sure that wireless charging will be smooth and uninterrupted.

Security at the highest level

The Mcdodo MC-5021 keeps your devices safe with advanced protection against overheating, overvoltage, overcharging, overcharging, short circuit and other hazards. In addition, the device is equipped with an NTC temperature sensor, which ensures fast charging with low heat.

Practical functions and modern design

A set of LED indicators informs about the battery level and the current charging mode - blue for wireless charging and orange for wired charging. In addition, the powerbank's casing is fingerprint-resistant, ensuring its aesthetic appearance for longer. There is also a small button for easy operation of the device.
