Power Bank Mcdodo MC-0561 Digital Dis 25000mAh,100W (black)

Power Bank Mcdodo MC-0561 Digital Dis 25000mAh,100W (black).

The Mcdodo MC-0561 powerbank is an advanced device with versatile capabilities that will meet the requirements of the most demanding users. With up to 100 watts of power and three charging ports (two USB-C and one USB-A), you can simultaneously charge various devices, including laptops, phones and tablets. The product also features an easy-to-read display, and a USB-C to USB-C cable is included.

Capacity you can rely on

The Mcdodo MC-0561 offers an impressive 25,000 mAh capacity, allowing you to charge your devices multiple times. For example, you'll charge an iPhone 15 about 4.3 times, and a Samsung S23 up to 4 times. This is an indispensable solution for long trips or busy work days!

Instant charging thanks to the power of 100W

With a USB-C1 output of up to 100W, the powerbank allows you to efficiently charge laptops such as the MacBook Pro, for example, providing a 41% charge in just about 30 minutes. This is an ideal option for those who work remotely, travel frequently or use a laptop in the office! What's more, the product supports various fast charging standards, including PD3.0, PPS and QC4.0.

#### Simultaneous charging of multiple devices

The powerbank is equipped with three ports (two USB-C and one USB-A), allowing you to charge several devices simultaneously. In addition, the dynamic power distribution means you can efficiently charge two laptops or other equipment such as phones and tablets at the same time.

#### Charge your powerbank in the blink of an eye

The powerbank charges with up to 60 watts of power, which means it only takes about 2.5 hours to charge it to 100%. This is ideal if you need to get your device up and running quickly.

#### Digital display and advanced safety features

The Mcdodo MC-0561 has a built-in digital display that keeps you informed of the charge level. In addition, thanks to dual NTC sensors, the device monitors the temperature in real time to prevent overheating. The product is also protected against overvoltage, overcharging, short circuit and other hazards.

#### Built-in cable and thoughtful design

The powerbank is equipped with a USB-C cable that conveniently fits on a special stand, which prevents tangles and helps keep it tidy. The product is also extremely small and handy - you can carry it with you at all times. In addition, the MC-0561 model meets international air transport standards, which allows you to take it with you even on a plane without any worries.
