

## Power Bank Mcdodo MC-0241 Digital Dis 10000mAh, 22,5W (czarn

Ref: 6921002602419

Power Bank Mcdodo MC-0241 Digital Dis 10000mAh, 22,5W (czarny)

Mcdodo MC-0241 Digital Display Powerbank 10,000 mAh 22.5W (black).

Don't wait for one device to charge to plug in another. The Mcdodo MC-0241 powerbank allows you to charge 4 devices at once thanks to 2 ports and 2 built-in cables. It supports both iOS and Android devices, and a smart digital display will let you know the status of the powerbank. What's more, you can take the Mcdodo MC-0241 on a plane.

### Fast charging for your devices

The powerbank uses USB-A and USB-C ports and comes with built-in USB-A and Lightning cables. As a result, the iPhone 15 will charge up to 60% in 30 minutes. In addition, support for PD, QC, AFC, etc. fast charging protocols will restore power to your equipment in a short time. On the other hand, the capacity of 10,000 mAh allows you to charge the Samsung S23 1.5 times, and the iPhone 15 about 1.8 times.

### Safety of use

Use the Mcdod powerbank without worrying about damaging your equipment. The product uses multi-level protection, including protection against overheating, overcharging, overcurrent, electromagnetic field, short circuit, over-discharge, etc. As a result, you can charge your devices safely.
