Bluetooth speaker Blitzwolf BW-WA4 30W 4000mAh

Ref: 5907489608206

Blitzwolf BW-WA4 Bluetooth Speaker

Your favorite music can be where you want it to be. The device features a compact design and water resistance, so you can take it on a trip to the mountains, garden party, etc. without worry. The DSP chip and the 30W power are responsible for the impressive sound, you can also customize BW-WA4 with EQ. Connect the speaker to other devices via Bluetooth 5.0 or ports: AUX and TF. The long-lasting rechargeable battery provides up to 20 hours of operation and can be fully charged in about 3 hours. Plus, there's voice control and the ability to pair two speakers simultaneously for even more convenience.

The sound quality you deserve

The BlitzWolf speaker has 30 watts of power, delivering you excellent sound quality. As a result, you can enjoy a richly detailed and deep bass sound. You can also customize the performance of the BW-WA4 with the sound equalizer. Plus, you can pair 2 speakers at the same time for better results.

Some connectivity options

For even more freedom of use, the BW-WA4 offers several connectivity options. The speaker supports Bluetooth 5.0, which provides fast and stable signal transmission. You can also use the AUX port to connect the device of your choice, or play music using a TF card.

Durable

Take the BlitzWolf speaker to picnics, garden parties - anywhere you want. The device features a durable 4000 mAh battery that allows you to play music for up to 20 hours. In addition, it is IPX6 water-resistant, so you can use it without worrying about damage.

Built-in microphone

Another advantage of the BW-WA4 speaker is the built-in microphone, which allows you to use the voice assistant. The device works with Siri and Google Assistant. You no longer need to reach for your phone to turn on the playback, just a simple voice command.

Compact, carefully considered design

The lightweight and compact design of the speaker allows you to store it conveniently. You can easily hide it in your backpack or handbag. Silicone finish prevents the speaker from slipping out of your hands. You can also attach a lanyard, thanks to the dedicated hole. What's more, you can conveniently operate the speaker with the buttons on the top. With them you can, for example, adjust the volume, stop the playback, or set the equalizer.
