

Darkflash DK100 Computer Case (white)

Darkflash DK100 Computer Case (white)

Ref: 4710343793670

Darkflash DK100 computer case (white)

Do you want to assemble a computer on which you can work or even play? The Darkflash DK100 case will help you do just that! The product offers plenty of expansion possibilities and is equipped with several key ports, including USB 3.0 and a headphone output. The minimalist front panel will give your equipment an elegant character, while the transparent side panel will allow you to expose, for example, backlit components.

Several available ports

Create for yourself a computer that you will be comfortable working with. The DK100 case offers several practical ports and buttons. Among others, there are 2 USB 2.0 ports, microphone input, headphone output, as well as Power and Reset buttons. There's also a USB 3.0 port, so you can transfer files and enjoy fast charging of your devices in no time.

Thoughtful design

The side panel of the DK100 is transparent, so you can get interesting visual effects with RGB backlit components. What's more, it uses wing screws for its installation, so if necessary, you can easily open it and replace selected components or clean the inside of the case. Also noteworthy is the minimalist, smooth front panel, which will give your computer a sleek, modern character.

Plenty of possibilities

Create your dream hardware configuration. The DK100 case allows you to mount a 300 mm graphics card and a 160 mm high CPU cooler. Up to 7 expansion card slots are available, and you can also install HDD or SSD hard drives. The product is compatible with ATX, M-ATX and ITX motherboard standards. It also allows you to install 3 fans or 2 water coolers. The place for installing the power source is located at the bottom of the case.
