

PC Water Cooling AiO Darkflash TR240 RGB 2x 120x120 (white)

Ref: 4710343792154

PC Water Cooling AiO Darkflash TR240 RGB 2x 120x120 (white)

Darkflash TR240 Water Cooling 240 mm

With the TR240 you will take care of the proper cooling of your computer's CPU. The device is characterized by reliable operation, its modern design and colorful backlighting. You can also successfully synchronize it with the motherboard. The cooler guarantees optimal heat distribution, while surprisingly quiet operation. Compatible with AMD and Intel processors - its installation will not cause you any problems.

Optimal temperatures

The TR240 uses high-quality materials that conduct heat perfectly. The efficiency area of the device has been increased thanks to the wavy design of its fins. This also ensures more efficient cooling with the built-in fans. Optimal heat distribution and exchange make the cooler ideal for keeping the CPU temperature at the right level.

Extremely quiet

Worried that annoying noises will disturb your peace and prevent you from enjoying your game? Not to worry! The radiator fans have been designed to eliminate similar problems. The sound-capturing technique has made it possible to reduce the air resistance and, consequently, the volume of the device.

Easy to install

Worried that installing a radiator will prove too complicated? Not at all! The device is compatible with certain models of AMD and Intel processors, and its installation will not cause you any problems. It is also possible to synchronize the TR240 with the motherboard.

A successful combination of functionality and aesthetics

The product has been equipped with a cooling tube covered with a robust woven material. It not only ensures greater safety of use, but also gives the cooler an interesting, stylish character. Darkflash devices combine exceptional functionality with attractive design.

Gaming backlighting

What else makes the TR240 stand out? A unique and impressive design! Spiral, colored backlighting makes the device draw attention and surprises with its modern design. The water block was designed in such a way that the cooler looks even better. Do you want original style effects? Combine the TR240 with other RGB hardware!

Kit contains:

watercooling

INTEL & AMD installation kit

Screws

User Manual

Thermal conductive paste

PWM connector

Manufacturer

Darkflash

Model

TR240

Type

Water cooling

Color

White

Number

fans 2

Fan size

120x120 mm

Fan size

120x120x25 mm

Bearing type

Hydraulic Bearing

Fan speed

1800 RPM

Airflow

71 CFM

Maximum fan noise level

32 dBA

Dimensions of the heatsink

274x120x27 mm

Heatsink material

Aluminum

Pump dimensions

75x75x53 mm

Pump rotation speed

2500 RPM

Maximum noise level of the pump

23 dBA

Supply voltage

12 V

Maximum current

190 mA

Connector

4 Pin + 3 Pin

Backlighting

ARGB

Compatibility

Intel: LGA 775 / 1155 / 1156 / 1366 / 2011 (Core i3/i5/i7) AMD: AM4/FM2 / FM1 / AM3+ / AM3 / AM2+ / AM2

Weight

1.495 kg

TDP

230 W

Price:

€ 71.00

Gaming, Computer cooling, Water cooling
