Bicycle rearview mirror Rockbros FK-419 (black)

Rockbros bicycle rear view mirror FK-419

Take care of your safety on the road. The Rockbros FK-419 rear view bicycle mirror allows you to conveniently check what's going on behind you - without having to turn around. It is also distinguished by its adjustable design - you can easily position it at any angle and rotate it 360°. The product is also very easy to install.

The mirror you need

Keep everything under control and enjoy a more comfortable ride. The Rockbros mirror is made of high-quality materials and features a convex surface, so you can see much more in it. Now you can comfortably check what's going on behind you!

Easy to mount

Mounting the mirror is no problem. The accessory is ideal not only for use on a bicycle, but also, for example, on a moped or electric bicycle. It fits handlebars with a diameter of up to 32mm. The mirror is also very robust and resistant to damage. The set also includes 2 non-slip pads.

Adjustable design

Position your bike mirror exactly the way you want it. The FK-419 is distinguished by its flexible design. You can freely adjust its position

Ref: 5905316145429

and also rotate it through 360°. Adapt it to your needs and enjoy even more comfort while riding!
