

Tripod Freewell FW-T1

Tripod Freewell FW-T1

Ref: 6972971864445

Freewell FW-T1 Tripod

Try out the lightweight, foldable Freewell FW-T1 tripod! It's perfect for traveling photographers and outdoor photography enthusiasts. It combines compact design with durability and versatility. It also offers height adjustment capability, allowing you to customize it to your needs.

Portable and Adjustable

You can take the Freewell tripod with you almost anywhere. Its ultracompact and lightweight design makes storage and transportation easy. Moreover, when folded, its dimensions are only 428 mm. The tripod extends from 160 mm to 1500 mm with the center column extended. Meanwhile, the non-slip feet provide stability on various terrains.

Durability and Versatility

Made of lightweight yet durable carbon fiber, the tripod ensures longevity. Additionally, the tripod head can withstand loads of up to 5 kg. It features a 360° aluminum ball head and allows for both horizontal and vertical photography. You can securely attach a camera, camcorder, smartphone, action camera, and more.

Innovative Features

The Freewell FW-T1 utilizes 2 1/4-inch threads for mounting additional accessories and has a built-in slot for an Apple AirTag transmitter and a discreetly placed phone holder in the quick release. There's also the option to unscrew one of the tripod legs, attach the center column, and use the FW-T1 as a monopod! Furthermore, you can rotate the center column to take ground-level shots.
