Ref: 6977038680358

Smart ceiling lamp 30cm WiFi/Bluetooth 16M RGBCW Gosund LB12 1920lm Tuya + Remote Control.

Smart ceiling lamp 30cm WiFi/Bluetooth 16M RGBCW Gosund LB12 1920lm Tuya + Remote Control.

The Gosund LB12 smart ceiling lamp is the perfect solution for those looking for modern lighting with a wide range of features. With a choice of 16 million colors, voice control, remote operation and a minimalist design, this lamp is the perfect addition to any interior, offering comfort and energy savings on a daily basis. Bluetooth connectivity to an app or the ability to control remotely via remote control make managing lighting easier than ever before.

Intuitive control and voice control

The Gosund LB12 lamp offers the ability to control the lighting with the Smart Life app, available for Android and iOS devices. You can easily change colors, adjust brightness (up to 2,400 lm), turn the light on and off, adjust lighting temperature (from 2,700K to 6,500K) and set schedules using your smartphone. The lamp also supports voice control, allowing convenient management with simple voice commands.

Remote control and group management

With built-in Bluetooth or WiFi connectivity, you can connect several Gosund LB12 lamps and manage them as a group. This allows you to adjust the lighting in different rooms at the same time, creating a consistent mood throughout your home. In addition, the lamp is equipped with a remote control that allows you to control it from up to 10 meters away for convenience and flexibility of use.

Minimalist design and resistance to conditions

With its sleek, minimalist design, the lamp fits perfectly into modern interiors, while offering high functionality. The device is characterized by resistance to water, cold and fire, making it a safe choice for any home. Compact dimensions and simplicity of installation allow it to quickly fit into various rooms.

Energy saving and user comfort

The Gosund LB12 lamp not only provides striking lighting, but also helps save energy. With the ability to set schedules, the lamp will automatically adjust its operation to your lifestyle, turning off when not needed. Battery power (AAA batteries, not included) and remote control capability provide maximum convenience of use.
