Ref: 6928493311844

Accumulator Gens Ace G-Tech 6000mAh 22.2V 60C 6S1P XT90 Lipo

Gens Ace G-Tech 6000mAh 22.2V 60C 6S1P XT90 Lipo Battery

The Gens Ace G-Tech battery is a powerful power source designed for advanced RC models such as airplanes, drones and helicopters. It offers a capacity of 6,000 mAh and a voltage of 22.2 V, providing a long-lasting supply of power to your device. Thanks to its high 60C discharge rate, it guarantees stable power, which means it will perform well in even the most demanding applications. In addition, the XT90 connector guarantees a safe and efficient connection to the equipment, while the weight of 822 g and dimensions of 147 x 45.5 x 57.2 mm allow seamless installation in various flying models.
