

iPega PG-9023s wireless controller / GamePad with phone hold

Ref: 6974363711627

iPega PG-9023s wireless controller / GamePad with phone holder

iPEGA PG-9023S gaming controller

Comfortably play your favorite games on your tablet or smartphone. The iPEGA PG-9023S gaming controller features a long telescoping boom, making it a perfect fit for a wide variety of devices. Bluetooth 4.0 connectivity ensures stable, reliable transmission, and multimedia buttons provide convenient access to several useful functions. The device is also distinguished by its wide compatibility and an operating time of up to 15 hours on a single charge.

Long telescoping boom

Customize the controller to suit your needs. Thanks to the built-in telescopic boom, you can extend it up to 28 cm wide, allowing you to place not only various smartphone models, but also tablets. Comfortably play on the device of your choice and break more records!

Practical multimedia buttons

Do you often listen to music while playing games? Pad G-9023S will be perfect for you! The device is equipped with several function buttons, with which you can quickly and conveniently stop or resume playback, switch the song and adjust the volume.

Reliable wireless connection

Say goodbye to connection problems. Bluetooth 4.0 provides fast, stable and lag-free signal transmission, so you can play even the most

dynamic games without interruption. To use the controller, you don't need to download any apps. Just connect to it via Bluetooth and play your next duel!

Designed with gamers in mind

The controller's buttons have been placed in easy-to-access locations and provide instant response. The device's joysticks rotate 360° and guarantee unparalleled precision - now you can easily track down your opponent in the game and send an accurate missile towards him. At the same time, they are pleasant to the touch and non-slip, providing even more comfort in gameplay.

Improved design

The iPEGA-branded controller features an improved ergonomic design. It fits perfectly in the hands and looks really good. What's more, the phone or tablet holder is designed to provide the required stability to the devices and protect them from falling out.

Long working time

Free yourself from cables and gain almost unlimited freedom. The wireless pad by iPEGA is equipped with a long-lasting battery that allows it to run for up to 15 hours on a single charge. In standby mode, it lasts up to 40 days! It only takes about 3 hours to fully charge the device.

Wide compatibility

Forget about compatibility problems. The PG-9023S Pad works perfectly with most popular smartphones and tablets. It supports both Android and iOS (versions 11.0 - 13.3.1 only). It is also compatible with a multitude of games, so you can comfortably play your favorite titles without any obstacles.
