Power strip with 2 outlets 6in1, 2x USB-C, 2x USB-A Mcdodo CH-4610, EU (black)

Ref: 6921002646109

Power strip with 2 outlets 6in1, 2x USB-C, 2x USB-A Mcdodo CH-4610, EU (black).

The Mcdodo CH-4610 power strip combines functionality and stylish design. Equipped with two AC outlets, two USB-C ports and two USB-A ports - it provides convenient and efficient charging of multiple devices at the same time. Whether you need to charge your laptop, smartphone, tablet or other devices, the product will meet your needs with up to 70 watts of total power and 2500 watts of maximum AC power.

Fast USB-C and USB-A charging

The Mcdodo CH-4610 offers two USB-C ports with a maximum power of 70 watts, which support fast charging according to PD2.0, PD3.0, QC3.0, QC4.0, FCP standards and more. The USB-A ports, on the other hand, offer up to 30 W of power and support protocols such as QC2.0, QC3.0, FCP and SCP, for example. So you can effectively charge even several devices at the same time!

Separate circuits

Mcdodo power strip is designed for safe and stable charging. Thanks to separate circuit technology, AC and USB outlets and ports are placed in different sections, which minimizes the risk of short circuits and ensures stable, safe operation. Now the user can use strong and weak power sources in one device, allowing convenient power management!

Advanced GaN technology and reliable protection

Thanks to GaN technology, the Mcdodo CH-4610 power strip features a smaller size and greater energy efficiency. This solution provides faster charging with less heat generation, making the device more durable and safe for daily use. In addition, the product is equipped with advanced safety features, such as short-circuit and overheat protection, and an integrated surge protection circuit guarantees safe charging even during storms.

Ergonomic and stylish design

The Mcdodo power strip is distinguished by its modern design, which blends perfectly into any interior. Its compact dimensions (142 x 64 x 50.5 mm) and lightweight design (530 g) make it ideal for both home and office. In addition, thanks to the proper spacing of AC outlets, you can plug in larger plugs without the risk of blocking adjacent ports.

Convenience of use

One of the most important advantages of the Mcdodo CH-4610 power strip is also its ease of use. With a single button, you can quickly disconnect the power, which is especially useful during frequent use. Silicone pads on the bottom of the device prevent it from sliding on various surfaces, and the long 1.5-meter cable provides more freedom of movement. Now you can place your equipment anywhere with ease!

Wide compatibility

The strip's AC outlets are distinguished by as much as 2,500 watts of power, so you can easily plug in all sorts of devices, such as monitors, projectors, and even hair dryers and kettles, for example. On the other hand, the USB-C and USB-A ports of the CH-4610 models are perfect for charging smartphones, laptops, tablets, powerbanks, portable game consoles and more!
