

Petwant W5 ceramic animal fountain/ drinker

Petwant W5 ceramic animal fountain/ drinker

Ref: 5906168436260

Petwant W5 ceramic pet fountain/drinker.

Ceramic fountain Petwant W5 is an elegant and functional solution that provides constant access to fresh water for your pet. It features a capacity of as much as 2 liters and is made of high-quality materials that are durable and antibacterial. It also offers a reliable filtration system. Designed for both cats and dogs - it supports healthy drinking habits by setting water in motion, thus encouraging water consumption.

Easy to maintain

The Petwant W5 fountain is made of ceramic, which is not only safe for pets, but also easy to clean - it can be washed in the dishwasher. At the same time, the material is scratch-resistant and antibacterial, which means that the water always remains fresh and clean. In addition, the device features a minimalist, modern design, so it fits perfectly into any room.

Reliable filtration for your pet's health

The Petwant W5 waterer is equipped with a reliable filtration system that effectively removes dirt, hair and other small particles. This ensures that your pet drinks water free of harmful substances, which promotes its health and well-being.

Constant access to fresh water

The 2-liter capacity provides enough water for a full day, even when you're away from home. The continuous flow keeps it fresh and oxygenated, which encourages your pet to drink. This is especially important for cats, who often tend to consume too little liquid.

Quiet and energy-efficient operation

The Petwant W5 operates exceptionally quietly, making it less disturbing to your home. This makes the fountain ideal for long periods of use, providing comfort for both you and your pet.
