Ref: 5906168436284

Petwant PWS-141B 3.2L animal fountain/drinker

Petwant PWS-141B 3.2L pet fountain/drinker.

Provide your pet with constant access to fresh, clean water. The Petwant PWS-141B fountain puts liquids in constant motion, attracting your pets' attention and encouraging them to drink. It is distinguished by its large capacity of 3.2 liters, and thanks to reliable filtration it effectively eliminates impurities and unpleasant odors. At the same time, it is very easy to clean, and high-grade 304 stainless steel is used for its construction.

Large capacity

You no longer have to worry that in your absence your pet will not have access to water. The capacity of the Petwant fountain is as much as 3.2 liters - this is enough for about 7 days for small dogs or even 14 days for cats. So you can go to work or go away for the weekend without any worries! The drinker also has a built-in window that makes it easy to monitor the water level in the tank. All you need is a glance!

Quiet operation - comfort for you and your pet.

The fountain is equipped with a low-noise pump of only 20 dB. As a result, the device operates practically silently, without disturbing household members or stressing pets.

304 stainless steel - a guarantee of durability and safety

The use of 304 stainless steel makes the fountain corrosion-resistant and durable, making it an ideal choice for long-term use. This material is also easy to keep clean - you will easily keep it in excellent condition.

It attracts the attention of quadrupeds

The Petwant PWS-141B fountain puts the water in constant motion, so it is constantly aerated and stays fresh for a longer period of time. In this way, it also attracts pets' attention, encouraging them to drink more often. Thus, it helps keep your pet properly hydrated!
