Sothing DSHJ-S-2111A shoe dryer (white)

Ref: 6933172102064

Sothing DSHJ-S-2111A shoe dryer (white).

No more damp shoes! The Sothing DSHJ-S-2111A shoe dryer is a versatile solution for the whole family. Imagine coming home from work or training wet from the rain and your shoes, gloves or hat are damp. With this compact dryer you can quickly restore their dryness and pleasant warmth. The unit features flexible handles that can be adjusted to fit a variety of footwear, from athletic shoes to delicate slippers or wellingtons, as well as drying accessories, so you can quickly get them ready to wear again.

Drying, deodorizing and dehumidifying

The Sothing DSHJ-S-2111A is more than just an ordinary shoe dryer - it's a 3-in-1 device that not only dries, but also eliminates moisture and neutralizes odors. Thanks to its deodorization function, it effectively removes bad odors, leaving footwear fresh and fragrant. Moreover, its use prevents the growth of fungi and bacteria.

Temperature control and energy saving

The dryer is equipped with a 3-level timer, allowing you to set the drying time for 3, 6 or 9 hours. So you can easily adjust its operation according to the degree of humidity, as well as the type of material being dried. When the set time has elapsed, the device will automatically turn off, which eliminates the risk of overheating and saves energy.

High efficiency

The product is equipped with 1,926 heat-dissipating holes that maintain a stable temperature, protecting shoes from overheating. The PTC heat generators guarantee even distribution of heated air, allowing even the deepest nooks and crannies of shoes to dry quickly. As a result, your shoes will be perfectly dry, and you will avoid the unpleasant feeling of wet feet.
