Mcdodo CH-8442 UK/US/EU network charger, 2x USB-C + USB-A, USB-C cable 2m, 65W (black)

Mcdodo CH-8442 UK/US/EU mains charger, 2x USB-C + USB-A, USB-C cable 2m, 65W (black)

The Mcdodo CH-8442 mains charger is the ideal solution for those looking for a fast and reliable power source for their devices. With a maximum power of 65W and three output ports (2x USB-C and 1x USB-A), it allows you to charge up to three devices simultaneously, offering incredible versatility and convenience, both at home and on the go. The kit also includes a USB-C to USB-C cable (60W) and interchangeable UK and EU adapters.

65W fast charging

The Mcdodo CH-8442 allows you to charge devices with up to 65 watts of power, making it ideal for laptops, tablets and smartphones. Its two USB-C ports support PD3.0 and PPS standards, providing fast and efficient charging for a wide range of equipment.

Ideal for travel

The Mcdodo CH-8442 charger is designed with travelers in mind. It is equipped with a collapsible US plug, and also includes EU and UK adapters. So you can easily use it in more than 200 countries around the world!

Compact and durable design

The Mcdodo CH-8442 charger features a compact design that makes it easy to carry and store. Made of durable PC material - it is

resistant to mechanical damage and guarantees a long service life. In addition, the built-in light indicator indicates the charging status, and the matte surface of the case gives the product a sleek, modern character.

Performance and safety

The CH-8442 uses GaN technology, which provides a smaller size and higher efficiency compared to traditional chargers. What's more, the product is equipped with an advanced safety chip that guarantees protection against overheating, overvoltage, overload, short circuit and other hazards. So you can rest assured that your devices are always protected and charging is done safely.

Wide compatibility

The charger is compatible with a wide range of devices, including smartphones, tablets, laptops and portable game consoles, among others. It also supports the most popular fast charging standards, such as PD3.0, QC4.0+, QC3.0, SCP, FCP, AFC and PE, making it a versatile solution for a variety of needs.
