Yaber T2 Plus Projector
Now you can feel like you're in a movie theater wherever you are. Offering native Full HD 1080p resolution and 450 ANSI lumens of brightness, the Yaber T2 Plus projector delivers fantastic picture quality. It also provides crisp, detail-saturated sound - all thanks to built-in JBL speakers and support for Dolby Audio. What's more, the device works wirelessly and is very convenient to carry - so you can experience a cinematic experience wherever you want!
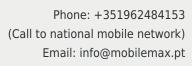

Exceptional image quality
The Yaber T2 Plus offers Full HD 1080p resolution for crisp and detailed images. With a brightness of 450 ANSI lumens, the projector performs well in a variety of lighting conditions, and a projection range of 40 to 120 inches allows you to match the screen size to the available space. Watch your favorite movies and series while enjoying excellent quality! You won't miss a single detail with the T2 Plus.

Delightful sound
The Yaber T2 Plus projector is equipped with JBL speakers and also supports Dolby Audio technology, so it provides excellent sound quality. So you can enjoy full, rich sound that will put you in the mood for a real cinema screening. It's perfect for movie nights - forget about having to plug in additional devices!

Wireless operation
Thanks to the built-in battery, the projector can operate wirelessly. Find out how convenient it is! The device offers up to 2.5 hours of continuous operation during video playback and up to 18 hours in audio mode. This is a great option for spontaneous screenings outdoors or at the campsite - without the need for a permanent connection to a power source.

Convenient portability
The projector weighs only about 2.4 kg, and comes with a practical handle, making it very easy and convenient to carry. You can easily take it to another room, on a trip or to the garden - Yaber provides almost unlimited freedom.

Wide compatibility
The projector is equipped with USB, HDMI and audio ports that allow you to connect a variety of equipment. You can easily plug in a laptop, console, USB flash drive or external speaker, giving you complete flexibility in using the device.

Google TV on board
Thanks to the built-in Yaber OS and Google TV, the projector offers convenient access to thousands of applications, such as Netflix, YouTube and other streaming services, for example. It's a device that not only guarantees picture and sound of the highest quality, but also serves as a home entertainment center.

Automatic settings for your convenience
The T2 Plus can automatically adjust such parameters as focus and keystone correction, so you won't have any trouble using it. Forget about complicated setup - the projector will take care of it for you, and all that's left for you is to enjoy the screening!
