

KJK 48MP WIFI photo trap (KJK-LCK228)

KJK 48MP WIFI photo trap (KJK-LCK228)

Ref: 5906168439308

KJK 48MP 2.7K WIFI photo trap (KJK-LCK228).

The KJK 48MP 2.7K WiFi photo trap (model KJK-LCK228) is a state-of-the-art device that allows you to capture extremely detailed photos and videos of up to 2.7K quality. Thanks to its advanced Wi-Fi technology and operation via a mobile app, using this device is extremely easy and intuitive. It's the perfect choice for wildlife enthusiasts, hunters and outdoor enthusiasts who want to capture every moment, even the most fleeting.

Wi-Fi connectivity and mobile app

The KJK 48MP 2.7K WiFi photo trap features innovative Wi-Fi connectivity and low power consumption thanks to Bluetooth technology. The dedicated, free "TrailCam GO" app allows you to easily program the device and view recordings and photos without having to download them to your phone first. This allows you to quickly and conveniently manage your equipment without leaving home.

Unparalleled image quality

Equipped with a state-of-the-art image sensor and a high-quality optical lens, the KJK228 photo trap captures extremely sharp and detailed images of up to 48 megapixels. In addition, the device records video at up to 2.7K resolution with audio, providing exceptional image quality and capturing every moment in vivid and clear detail. The H.264 MP4 video format guarantees excellent compression while maintaining quality, making it easy to store recordings.

Invisible lighting

The KJK228 photo trap is equipped with 36 950nm No-Glow LEDs that provide invisible illumination at night. Thanks to adaptive illumination technology, the device prevents overexposure and underexposure, allowing for clear photos and recordings even in total darkness. This solution ensures that the photo trap does not scare animals, allowing them to be observed discreetly.

Super-fast response time and wide viewing angle

With a super-fast response time of just 0.05 - 0.5 seconds, the KJK228 photo trap captures any movement without missing a single frame. A wide 130° PIR detection angle and a detection range of up to 100 feet provide a wide field of view, ideal for observing larger areas. In addition, the ability to set from 1 to 5 shots per trigger allows for even more accurate motion capture.

High weather resistance

The KJK228 features an IP66 waterproof rating, making it resistant to rain, dust and extreme temperatures from -22°F to 158°F. The rugged housing and high-quality seals ensure reliable performance in a variety of conditions, from deserts to humid rainforests. This is the perfect gift for anyone who values reliability and quality performance in harsh field conditions.
