Charger for Apple Watch Joyroom JR-W09 (black)

Ref: 6956116723859

Charger for Apple Watch Joyroom JR-W09 (black).

The Joyroom JR-W09 charger allows both wired and wireless charging of the Apple Watch. With a 2500 mAh battery capacity, it allows you to charge your watch up to 3-4 times. It also has a built-in USB-C cable and is very convenient to carry.

Wired and wireless charging

The JR-W09 is a practical 2-in-1 device, allowing you to use both wireless and wired charging options (via the built-in USB-C cable), giving you flexibility in any situation. It's the perfect solution for always being able to charge your watch without any problems!

Clear display

The built-in display tells you the current charge level of the product, allowing you to easily monitor the energy. This way you don't have to wonder when to reconnect the device to power - everything is visible at a glance.

Lightweight and compact design

Thanks to its lightweight and compact design, the JR-W09 charger is very easy to carry. It will be perfect for traveling! What's more, the built-in USB-C cable can act as a pendant, with which you can easily attach the device to your bag or backpack.

Fast charging

The Joyroom JR-W09 allows you to charge your Apple Watch to 60% in just about 30-60 minutes, which means you'll be back to using it quickly. Whether you need it for everyday use or sports activities, now you can be sure it won't let you down!

Wide compatibility

The charger is compatible with different generations of Apple Watch, such as, for example, 7, 8, 9, SE and Ultra 1 and 2. It perfectly fits the design of the smartwatch, making it very convenient to use.
