Joyroom JR-OK6 Car Holder (black)

The Joyroom JR-OK6 car holder is the perfect accessory for all drivers who want to have their phone always in sight. Made of high-quality ABS and silicone materials - it guarantees a stable mount for smartphones from 4.7" to 6.8".

360° rotation

Thanks to its full 360° adjustment, the Joyroom JR-OK6 mount allows you to freely change the position of your phone, providing excellent screen visibility in both landscape and portrait orientations. Whether you're using navigation or making a hands-free call, you'll always find the optimal viewing angle, increasing your comfort and safety while driving.

Stable and secure mounting - even on rough roads

The Joyroom JR-OK6 is equipped with a special locking mechanism that guarantees a secure hold on your phone even on bumpy roads. Wider arms and an adjustable stand ensure that the smartphone stays in place regardless of driving conditions. In addition, silicone pads protect the device from scratches and shocks.

Easy one-handed operation

Thanks to its intuitive mechanism, the Joyroom JR-OK6 mount allows you to easily attach and remove your phone with one hand. It's a

simple and convenient solution that will work for both short trips and long journeys.

Compatibility with various phone models

The Joyroom JR-OK6 car mount is compatible with smartphones with screen sizes from 4.7" to 6.8", and thanks to its design, it also fits phones in cases, including MagSafe. Regardless of the model of your device, the accessory can guarantee a secure and stable attachment.
