Magnetic car charger with cooling function Joyroom ZS387

Magnetic car charger with cooling function Joyroom ZS387

The Joyroom ZS387 car charger is an innovative solution for drivers who appreciate fast and safe charging on the go. It offers up to 15 watts of power, a reliable magnetic holder and a cooling function that ensures optimal conditions for the charged smartphone - even on long journeys. The product works perfectly with iPhone 15/14/13/12 series and MagSafe case.

Fast and safe charging

With up to 15 watts of power, the ZS387 will allow you to charge your smartphone in no time. In addition, the built-in fan provides efficient cooling and heat dissipation, so you don't have to worry about your phone getting excessively hot!

Powerful magnets

The charger is equipped with 16 N55 neodymium magnets, which provide an extremely strong and stable hold on your smartphone. Thanks to two magnetic circles, your device will stay in place even during sudden movements or driving on uneven terrain. All this gives you the assurance that your phone will not fall out of the mount regardless of the conditions on the road!

Double security of the mount

The double-locking system allows you to securely attach the charger to the car's grille. Automatic spring hooks and a locking mechanism

with a latch ensure a secure yet simple installation of the accessory - don't worry that it will fall off during your trip.

Refined in every detail

The sleek LED ring, glossy surface and metal frame make the charger look extremely modern and stylish. In addition, the accessory is very easy to use and allows you to rotate your phone 360°, so you can position it both vertically and horizontally to comfortably use navigation or play music.
