Smartring Colmi R06 18.1MM 8 (Black).

The Colmi R06 SmartRing is a modern solution for those who appreciate functionality in a compact form. Using Bluetooth 5.0 technology, the ring connects to your smartphone, providing a stable connection of up to 10 meters. Whether you're on the go or resting, the Colmi R06 offers a wide range of functions to help you track your activity and health.

Elegant design and durability

The Colmi R06 is made of lightweight aluminum alloy and weighs just 2.7 grams, making it virtually imperceptible to wear on your finger. Its elegant design blends perfectly with both everyday and sporty styles. In addition, the ring is 5ATM water, dust and corrosion resistant, so you can use it regardless of the weather.

Full health monitoring

With the QRing app, you gain access to advanced health monitoring features. The ring monitors your heart rate around the clock, allowing you to better understand the state of your body during both exercise and rest. The sleep monitoring function analyzes sleep phases and length, allowing you to identify bad habits and improve sleep quality. In addition, the Colmi R06 measures blood saturation, blood pressure and stress levels, providing a complete picture of the user's health.

Versatility and functionality

The Colmi R06 offers 21 sports modes, making it adaptable to different forms of activity. In addition, it measures distance traveled, calories burned and number of steps. The QRing app also provides access to daily, weekly and monthly activity charts, allowing you to track your progress and better manage your health.

Up to 5 days of operation

The SmartRing Colmi R06 features a 15 mAh lithium-polymer battery that provides 3-5 days of use on a single charge. The included magnetic cable will allow you to conveniently renew the device's power - it will be ready to continue working after about 1 hr. You can also check the battery level in real time using the QRing app, which eliminates the risk of unexpected discharge.
