Uperfect UGame K118 18" 2560x1600 144Hz Portable Monitor

Uperfect UGame K118 18" 2560x1600 144Hz portable monitor

If you want even more immersion, the Uperfect UGame K118 18" Portable Monitor is for you. The FreeSync monitor optimizes resolution to ensure 2K gaming quality. In turn, the 144Hz refresh rate provides smoother images for a better gaming experience. In addition, built-in VESA holes allow you to mount the monitor on a wall or desk and connect additional screens.

Enjoy even better image quality

The Uperfect UGame K118 lets you immerse yourself in every detail. With more than 2 times the resolution of Full HD, you can fully appreciate every detail and see stunning color reproduction and fine details in any content. In addition, the wider field of view allows you to view more elements and watch videos in 2K quality.

Richness of color and detail

With 100% DCI-P3, the monitor offers a larger color spectrum compared to regular monitors. Colors and details in games will look more realistic to increase immersion to the maximum, so gamers can get a better experience. What's more, HDR enhances the level of detail in black and white for a realistic picture.

Smooth picture for an even better experience

A refresh rate of up to 144 Hz improves the display quality, while a response speed of 9 ms makes the screen load faster and achieves advanced gaming fluidity. Note: the HDMI port supports a maximum output of 2560*1600 120Hz, while the Type-C port supports 2560*1600 144Hz). What's more, FreeSync technology effectively prevents screen tearing. You will successfully use the monitor for games such as first-person shooters, fighters, racing simulators, etc.

Tailored to your needs

Thanks to its ultra-narrow bezel and 180° rotation function, you can enjoy the best possible immersion in the latest games. The monitor weighs less than 1.04 kg, so you can take it with you anywhere to enjoy games, entertainment, etc. anywhere and anytime.

Several ports - wide compatibility

The monitor is equipped with various ports, such as mini HDMI, USB-C and AUX, so you can connect it to your device with just one cable. In addition, it is also compatible with Nintendo Switch, Steam Deck, PS4, PS5 and other gaming devices, smartphones, computers, etc.

Additional features

The monitor effectively filters harmful blue light to protect your eyes. In addition, Flicker-free technology eliminates flicker, preventing eye fatigue and vision deterioration. In addition, the built-in dual 8Ω 1W speakers provide 3D stereo sound, making the monitor suitable not only for playing games, but also for audio and video playback.
