

## Jumbo Hole Pencil Sharpener Tenwin 8038-1 12V adapter (black)

Ref: 6911410180388

Tenwin 8038-1 multifunctional electric sharpener (black)

Tenwin 8038-1 multifunctional electric sharpener is an indispensable accessory for anyone who values precision and convenience. It will work great in any office, classroom or art studio, providing perfect results every time. Its versatility allows it to sharpen a variety of pencils, from graphite to colored to carbon, making it the perfect tool for students, artists and professionals alike. All it takes is a light push to start sharpening, making the process simple and intuitive.

Ideal for all types of pencils

The Tenwin 8038-1 pencil sharpener is compatible with pencils from 6 to 12 mm in diameter, making it the ideal tool for sharpening a variety of pencils, including graphite, colored and carbon pencils. The fast sharpening time and automatic stop at the perfect moment ensure precise and efficient sharpening every time. In addition, the device offers a 3-level sharpening adjustment, allowing you to customize your pencil tip.

Large waste tank

The Tenwin 8038-1 is equipped with a large, well-sealed shavings container that not only holds a significant amount of waste, but is also easy to empty for added convenience. The device has an automatic shut-off function when the container is opened, which ensures maximum safety and prevents the sharpener from accidentally starting while emptying.

Convenience of use in the first place

The Tenwin 8038-1 sharpener is designed for maximum user convenience. It features automatic ejection of broken graphite, which eliminates the need to manually remove them and speeds up the sharpening process. Charging the sharpener won't be a problem either - just use the included adapter. What's more, the replaceable blades ensure the long-lasting performance of the sharpener, allowing you to easily replace worn-out components and keep the device in excellent condition.
