Desk Lamp Yeelight LED V1 Pro (clip version)

Yeelight Mesh Gateway - gain even more control over your lighting
The state-of-the-art Yeelight Mesh Gateway allows you to conveniently control BLE Mesh devices such as Yeelight M2 Downlight or Yeelight M2 Spotlight. You can successfully connect up to 50 products to it, and with Wi-Fi and LAN support, you can enjoy a reliable connection. Simple setup and Apple HomeKit compatibility make using its capabilities even more convenient.

2 connectivity options - choose the perfect one for you
Using this unique gateway, you will gain simple and pleasant control over your Yeelight smart lighting. The device supports 2 access modes - LAN and Wi-Fi. So your possibilities are extremely high. Use the gateway as you wish and enjoy a reliable connection!

Forget about signal problems
The device is equipped with an advanced Wi-Fi chip that impresses with high performance. Thanks to it, a stable, reliable connection is possible. In addition, with its 2x2 MIMO wireless technology, the Mesh Gateway provides an exceptionally strong signal that stands out for its long range and passes even through walls without the slightest problem. Say goodbye to transmission problems - take your remote lighting control to a new level with Yeelight.

You will configure it quickly and easily

Worried about the complicated configuration of the gateway? Don't be! Its operation is fabulously simple. Just turn it on, then add it to the Yeelight app. After that, you just need to find your BLE Mesh devices and pair them with the gateway. And that's it! Convenient control of smart lighting is at your fingertips.

Create a smart home and discover new possibilities
The gateway is compatible with Apple HomeKit, giving you even more lighting control options. Attach a Yeelight M2 Downlight or Spotlight to your smart home and enjoy their convenient control. You can also operate the devices by voice with the help of smart assistant Siri. Change light modes, remotely turn the lights on and off, and customize them to your needs and preferences - almost nothing limits you!
